## CROSS-WORD PUZZLE 81

## HOW TO SOLVE A CROSS-WORD PUZZLE

When the correct letters are placed in the white spaces this puzzle will spell words both vertically and horizontally. The first letter in each word is indicated by a number, which, when placed in the white space, will spell a word. The number 1 under the column headed "Horizontal" defines a word which will spell a word across to the first black square to the right, and a number under "Vertical" defines a word which will spell a word down to the first black square below. No letters go in the black spaces. All words used are dictionary words, except proper names. Abbreviations, slang, initials, technical terms and obsolete terms are indicated in the definitions.

In the Kitchen  
with 6 Famous Cooks

Expert Pacific Coast Cooks  
Give Choice Recipes for  
Unusual Desserts

(Editor's Note: This is one of a series of cooking articles contributed to this paper by six famous cooks.)

There never was a woman who kept house who didn't want her cooking to have an individual touch. And the making of desserts offers plenty of opportunity for expressing this individuality.

Recipes for several delicious desserts are given in this article by Mrs. Belle DeGraf, San Francisco, home economics counselor, and Mrs. Kate Brew Vaughn, domestic science director, Los Angeles.

**Santa Clara Dumplings**  
"For a quickly made dessert, I recommend Santa Clara Dumplings," says Mrs. DeGraf. "It takes less than half an hour to prepare them."

Here is Mrs. DeGraf's recipe:  
1 cup sifted flour  
2 teaspoons baking powder  
1/2 teaspoon salt  
1/2 cup milk  
1/2 cup strained, stewed apricots  
Sift dry ingredients together. Rub in shortening, then gradually add milk, mixing with a flat knife. Turn on to a slightly rounded shape. Roll out in rectangular shape about 4 inches wide and 12 inches long. Cover top of dough with apricot puree, then roll up like a jelly roll. Cut off slices an inch thick and place out side down in greased baking dish. Bake in a hot oven about 15 minutes. Serve with lemon sauce. Make the lemon sauce by mixing 1/2 cup brown sugar, 2 cups white sugar, 1 tablespoon flour, juice and grated rind of one lemon, and 1/2 cup butter. Bring to boil, and cook for five minutes.

**Dumplings**  
Dumplings and sauce should be served hot.

**With Oranges**  
Another interesting fruit dessert for which Mrs. DeGraf provides the recipe is Orange Custard Pudding.

1 cup milk  
1 cup orange rind  
2 eggs separated  
1/2 cup sugar  
Add the grated rind of 1 orange to the juice. Use soft bread crumbs. Sift through a coarse strainer. Add milk and orange juice. Beat eggs separately. Add sugar to yolks and then add to the custard. Mix well, then fold in stiffly beaten egg whites. Bake in a hot oven about 15 minutes. Serve with lemon sauce.

**Pineapple, Too**  
Hawaiian Pineapple Pudding is a simple dessert which is very pretty. Mrs. DeGraf's recipe is as follows: 1 cup grated pineapple, 2 cups whipped cream, and 1/2 cup powdered sugar.

**With Any Fruit**  
Strawberry Meringue. Doesn't it sound like a most palatable dessert? Mrs. Vaughn has a simple recipe for it.

1 egg whites  
1 cup sugar  
1 cup orange vinegar  
1 teaspoon vanilla  
Beat egg whites stiff. Add the sugar gradually, beating with wire whip. Drop the mixture on a greased plate. Bake in a hot oven about 15 minutes. Remove from oven, sprinkle with salt, replace cover and let stand five minutes. Turn into a bowl and set aside to cool. Just before luncheon is served add remaining ingredients. File in sherbet cups and serve.

**An Unusual Pie**  
Mrs. Vaughn's fig pie is an unusual change from the ordinary pie. Here are the ingredients: 1/2 cups boiling water, 1/2 cups raisins, 1/2 cups figs, 1/2 cups sugar, 1/2 cups flour, 1/2 cups lemons, 1/2 cups lemon, 1/2 cups and 1/2 cups chopped figs.

**Saves "Guesswork" Baking**  
A device that registers the degree of heat in the oven is now on the market. It takes the "guesswork" out of baking and roasting. It is easily fitted to almost any gas oven door.

There is more than an ounce of fat (at least two) and half a table spoonful in a quart of whole milk. If the healthy child is given a quart of milk and has butter on his bread, he gets enough fat, and that which he receives is in wholesome form. It is well, therefore, the United States Department of Agriculture believes, not to give children such fatty foods as pastry, fried meats, doughnuts or rich cakes, as experience has shown that these fats are not in so good a form for them. If the child is constipated, the occasional use of cream of salad oil is desirable for fat in abundance is laxative.

## Hardwood Resources in the State of Maine

Forests of Maine Occupy Some Fifteen Million Acres

Few people in Maine or outside of it realize how richly endowed this State is with hardwood resources. When the State was first settled practically the entire area was covered with forests. After 300 years the forests still occupy some fifteen million acres or more than seventy-five per cent of the total land area.

Because there has been a rapid decline in the saw lumber industry in Maine some people would have the world believe that the State's supply of soft woods is vanishing and within a few years will be exhausted. To those who know something about the situation such statements are as ridiculous.

Maine still has an immense acreage of soft woods and if it continues to maintain its policy of protecting them from fire and does not contribute to their destruction by the wholesale by over-taxation, we shall have sufficient soft woods for all our requirements for hundreds of years to come.

But the quantity of hard woods Maine has is not so generally known. The total timber acreage in the State, as stated above, is fifteen million acres. Of this acreage fifty per cent is of the "yellow" type or 7,500,000 acres, and the remaining 13 million acres or 80,000,000 cords.

Twenty-five per cent of the total timber acreage is of mixed hard wood, or 3,750,000 acres, averaging 30 cords to the acre amounting to 75,000,000 cords.

Twenty-five per cent of the timberland acreage is covered with spruce growth. This amounts to 3,750,000 acres.

The above figures, taken from the report of experts who made a careful survey of the State covering several years for one of the State's largest corporations, shows that there are available in Maine the almost unbelievable quantity of 185,000,000 cords of hard wood.

Before coal came into use as fuel Maine people used hard wood for heating purposes. Many factories were operated by steam produced from using wood. The railroads used it to fire their locomotives. Immense quantities of hard wood were used to burn lime and millions of cords of this fuel were shipped to Boston and other cities.

Each year, it is estimated, Maine people now consume 500,000 cords of hard wood for heating purposes.

But in spite of all this use, and in spite of the destruction of forests by fire, the hardwood acreage of this State has not materially decreased within the memory of the present generation.

A study of the above figures, which may be confirmed for any interested person, will show how great are Maine's hardwood resources.

We have what might be called an inexhaustible supply, and of better quality than any other State can offer. It is available for manufacturing purposes because of the construction of good roads and the use of motor trucks and tractors.

Some day this hard wood supply will bring to Maine many industries. That they have not come here to locate before has probably been due to the fact that no effort has been made to bring them here. Now the timberland owners who visit to have the hardwood which is growing on their land removed so that the soft woods may have a better chance to grow, are going to make a determined effort to induce industries which can use hard woods to come to Maine.

At their efforts will be successful and very soon it is as certain as that snow will again cover the Maine hillsides next winter.

**WELCHVILLE**  
No More Grange Meetings Till August—Huntings from Pittsburgh Visiting Relatives Here.

At the regular meeting of Oxford Grange, Friday evening, it was voted to hold no more meetings until the third Friday evening in August. A committee was also appointed to set a date for the annual fair to be held some time in September.

Mrs. Nellie Kendall, who has been ill is better and able to be out.

Mr. and Mrs. Clarence Chick and grandchildren, Gertrude and Mildred of Kittery and Mr. and Mrs. Harold Chick of Portsmouth, New Hampshire, were at the Hunting camp, Hogan Pond, last week.

Eugene Hunting and son, Eugene, of Pittsburgh, Pa. have visited Mr. Hunting's mother, Mrs. Charlotte Hunting. Mr. Hunting has returned home but Master Eugene is at Camp Oxford for the summer. This is his first year there.

Porties from Lewiston were at the Hunting camp for the week end and Mr. and Mrs. Curry McNeil and daughter, Dorothy, of Portland visited Mrs. McNeil's sister, Mrs. J. V. Hunting, July 4. Miss Dorothy remained for a visit.

Mr. and Mrs. Lawrence Brett and daughters, Charlotte and Priscilla and Mrs. Charlotte Hunting, with Mr. and Mrs. Almon Keene and children of West Poland, spent the holiday at Songo Lock.

**The Wish**  
President Will Hays of the Motion Picture Producers has flabbergasted the playwrights and novelists by ruling that plays and novels of immoral tendencies must not be filmed.

"It is desirable to see how many plays and novels are immoral nowadays," said President Hays in a Los Angeles interview. "Novelists and playwrights claim that they depict immoral scenes with a moral end in view, but I always come back at them with the St. Anthony story."

"I have just returned from a summer vacation in Europe, and an art critic said to him: 'On your European trip what did you think of that gorgeous painting in the Uffizi of 'The Temptation of St. Anthony?'"

"The returned traveler smiled broadly. 'Gee,' he said, 'when I saw that picture I wished, for the first time in my life, that I was a saint!'"

## GREENWOOD CITY

Mrs. George Cole, who has been very sick with measles, is gaining. Her little son, Keith, is still very sick.

Mrs. Anna Hayes and son, Mr. and Mrs. A. M. Whitman and family were Wednesday night callers at Estes Yates'.

The little son of Mr. and Mrs. L. B. Eamon is sick with chicken pox.

Clara Morgan is sick with German Measles.

Elmer Hayes and Bernard Morgan in company with friends attended the dance at East Bethel one night the past week.

Ruth Hastings visited her parents, Mr. and Mrs. George Cole over the Fourth.

Mr. and Mrs. Wilbur Yates were at Locke's Mills, Sunday.

We are sorry to know Mrs. W. O. Eamon is not in very good health but hopes she will begin to gain, now warm weather is actual here.

Anna, Elmer and Roland Hayes and a friend from South Paris in company with Mr. and Mrs. Estes Yates and family went to Ramford Falls outland, please, Sunday the Fourth. They went by way of the Mt. Zion Spring House and returned by way of Ramford Point, Hanover, Newry, and back to Greenwood City.

side was made and dinner eaten on the grounds at the Falls. A walk was taken out on the dam to view the machinery which lifts the water gates. Pictures were taken. Each and all pronounced it an ideal trip with ideal weather and no auto trouble.

Mr. and Mrs. A. M. Whitman were in Bethel, Monday.

Roy Millett is working at South Paris for his brother, Percy A. Millett.

Mrs. Doris Cole of Portland is visiting relatives at Greenwood City over the Fourth.

Artland Rogers was a week-end visitor at Charles Verrill's last week.

A Ring reunion was held at the old Ring place here July 4th. A nice time was had.

Mrs. Anna Hayes and sons, Roland and Elmer Hayes and a friend from South Paris, also Mrs. Estes Yates attended Franklin Grange at Bryant's Pond, Saturday night. They also made a short call at Dudley's Opera House where Sock Nevel holds dances each Saturday night.

A flying machine passed over this way July Fourth.

Oftentimes the world clamors for a leader because it has too many leaders.

NORWAY, MAINE

**ATTENTION!**  
If you desire a good, used car, don't fail to visit us before you purchase. Cars that will please you before and after you buy.

**Norway Buick Co.**

**THIS EIGHT ROOM MODERN BUNGALOW AT A SACRIFICE**

Here's the last word in an up-to-date bungalow. First floor, living room, library, dining room, kitchen, pantry; laundry with set tubs. Five sleeping rooms second floor, bath, hot and cold water, fireplace. Observatory with beautiful corner tower. All finished in polished hardwood. Piazzas on three sides. Private water system. 1 acre land, apple trees. Only short walk to Pennessseewassee Lake. All for \$3000. See us soon.

**The Dennis Pike Real Estate Agency**  
Norway, Maine.

**STOCKS OR SAVINGS?**

You never have to look in your newspaper to see how much your savings account is worth; nor whether it is paying dividends. No one gets a commission on your deposit. Think that over when you are tempted to buy stocks from a stranger.

Interest paid on checking accounts.

**The Norway National Bank**  
Norway, Me.  
More than Fifty Years of Service

**The Merchant Store**

Dry Goods and Apparel for Women, Misses and Children

**The July Clearance**

Starts the Second Week with the Same Good Bargains as When it Began

No lack of opportunities to make wise investments, in all departments, and generous savings are possible at this time as every department contributes its share of bargains.

**Ready-to-Wear Department**

All Ladies', Misses' and Children's Summer Coats we have left are priced at a saving of 1-4, 1-3 to 1-2 their value.

**Women's and Misses' Dresses**

in a good assortment of Silks and Cottons, special values and a good number of them at reduced prices.

**Children's Cotton and Silk Dresses**

all go in at this time at a reduction of 20 per cent. less than the regular fair prices.

**Piece Goods Department**

offers many special values and under priced materials during clearance time of which we mention only a few.

BEACH CLOTH, the same as Pamico, worth 50c at only 29c per yard.

SILK AND COTTON DRESS CREPES, 36 inches wide, assorted patterns and colorings, value 75c and more at only 35c per yard.

COTTON BROADCLOTH, in figured and stripe effects, values 50c to 69c, at only 29c per yard.

HANDKERCHIEFS, for women and children, one lot, of 25c Pongee Silk at only 12-12c each, one lot white and colored cotton handkerchiefs, value up to 15c, at only 5c each.

HOSIERY AND UNDERWEAR, odd lots and broken sizes, put out to clean up at much less than value. Special guaranteed, ladies' silk hose, all colors, at \$1.00 pair.

The special values in Cottons, Crashes, Towels and Bedding should interest every housewife.

You will find many of these items at this time priced at quite a little under value, a good time to buy for present and future needs.

**Odd Lots**

One counter of odd lots of merchandise put out and marked at only a fraction of the value to clean up and close out.

**One Price Cash Store**

**THE TWO SOLDIERS**

It was just before that last great day, two soldiers drew their rein with a gasp of the hand and a parting word, they might never meet again. One had a sword and clattering armor and the other a staff and a bow. They were both young men, and both were looking at each other with a look of surprise and wonder. The one who was looking at the other was a tall, dark man, with a broad face and a strong jaw. The other was a smaller man, with a fair face and a thin build. They were both looking at each other with a look of surprise and wonder.

"What a fine sword you have!" said the tall man, looking at the other's sword. "It is a fine sword, indeed. I have never seen one like it before. Where did you get it?"

"I found it in a cave," said the smaller man. "It was there for many years, and I found it one day when I was out hunting. I have never seen one like it before. Where did you get it?"

"I found it in a cave," said the tall man. "It was there for many years, and I found it one day when I was out hunting. I have never seen one like it before. Where did you get it?"

Poultry House Construction  
Important Considerations in

A poultry house to give the best results must be dry. Hens kept under artificial conditions must be made comfortable if they are to respond in the way of egg production. Dryness in the poultry house is essential to comfort. To make a poultry house dry it must be well ventilated. The system of ventilation which has been especially successful in Maine is through an opening in the south side of the house and to this opening has been given the name of open front. The opening for Maine conditions should be of a size equal to one tenth of the floor area.

A dry litter is equally important because hens will not scratch a great deal in a damp or dirty litter. Poultry houses set too close to the ground or houses which are banked frequently become damp on the floor because of moisture which comes up from the ground underneath. This causes the litter to become damp and creates conditions which result in low egg production and which is favorable to the development of diseases. Building the house up from the ground at least one foot and leaving it open around the sides will prevent this ground moisture from causing damp floors. It also saves the house from rotting and prevents the loss from wintering under the house. Four to six inches of straw or plunger shavings or a mixture of the two make a good litter.

Other things being equal the warmer poultry house during winter is more desirable. The open front type poultry house which is 30 to 40 feet deep is warmer than those which are narrow. Such houses give the hens a chance to get back away from the opening and the roosting quarters being in the back of the house the house is warmer. To provide light in the deep houses, three light cellar windows placed under the dropping boards in the north side tend to provide a more even distribution of light on the floor. At least three windows in each 20 foot pen will be needed. During summer these windows may be removed for additional ventilation.

Large pens so that the hens can be kept in units of at least 100 hens per pen is an effective way to save labor. The common notion that hens will lay a larger number of eggs per hen when kept in small units of from 20 to 50 hens per pen is not substantiated by the results of records kept by poultrymen in Maine. Records show that hens will lay as many or more eggs per hen in large pens than in small ones and that only about 70 per cent as much time is required to care for hens in pens of 100 or more as when they are kept in small pens of 40 or less. Hens in large pens do not require as much floor space per hen as those in small pens. Four square feet in small pens and three square feet in pens for 200 hens or over will be sufficient.

In poultry house construction the first consideration is to make the house comfortable for the hens. Secondly it should be conveniently arranged to save labor in doing the chores and thirdly it should be as economical as possible.

**LOCKE'S MILLS**

Mrs. A. C. Ford and daughter of New Gloucester, visited last week with Mrs. Alice Farrington.

## Over the Sky Line

re "Belle Jennings"

[illegible]

One night Linda watched faithfully day and night, and she waited and failed to catch the cattle, and they were nearly crazy at the hunger and disappointment. When guards left out to watch, they were a quiet lot of men, and Linda noticed in a flash and running up to Happy, asked him to go with her. She knew instinctively but wanted to know. "What?" "Linda, how can I tell you? And I can never face Pap with the facts," said Linda. "I know," said Linda. "But how many more can I mislead?" "Tell Pap all at once," he said. "Let's not tell Pap just at present, for he doesn't think of the night. It was a very thoughtful little thing that I did for the house and prepared her father's supper."

In the morning Mr. Farrington felt that Mr. Elliott rode over and talked for a time, and he was sure that Linda, nor did she intend he should. Her father thought it strange she did not come like his folk, but he was not sure. It was not until at dinner Linda told him of the missing steers and begged him not to get to the point where he would leave it to Ben and Hap. She hurried to get the steers, and when it was finished to her satisfaction, so she thought for a change she would take the steers and get Hunter limbered up for a long time.

She rode slowly at first, thinking deeply, then her eyes involuntarily sought the men, then she could see no one. "On such a night," she thought, "they would be working. Some had been riding fences to see if by any chance there could be a break where the steers might have slipped through. They would be out there, and I am sure, so they were just as puzzled as before."

Linda tried to be funny and joke the men, but she could not. She was a poor and she couldn't seem to force a smile.

Better hit the trail, girl, and look after Pap," said the suspicious old man, old for, for he was forty and the oldest of the bunch.) She swung into the home trail and was away like the wind.

"Linda, Linda," said the men, said, as she rode in, "any more gone?" "Not yet, Pap, the boys are doing great work, but all around the fences this morning," said Linda.

"Oh, it's rustlers all right," replied her father. "I wish Hap could get his eye on one of them, so as to find the men, then they get away with the cattle."

Young Elliott kept on Linda's track quite closely, but she, as well as the help, could not see the suspicious old man, although she did not believe him to be a rustler. By her not coming out when he called last and not seeing her on any of the trail, he was suspicious, but he was a little suspicious, too, for he knew she was a poor and fearless. He remembered, too, that she packed a gun and knew full well how to use it. Then he thought how foolish he was to be so suspicious of a girl not yet eighteen. But in spite of all he could do, he could not keep her out of his mind and told his pals they were to keep an eye on her. They were to hit the LF bunch late up hunting a little and brand some of the steers.

His ranch, (only there was his name) came to the point where he was to work over the LF to EE brand. The next morning Linda was up early and in the best of her spirits, and somehow her eyes were not so suspicious. She whistled or hummed their old trail songs, something they had not done for days. Mr. Farrington only, kept silent. The men, however, were not so suspicious. As soon as it was over, she dressed for riding, but instead of her brown suit and red tie, she wore a dark blue riding suit and a dark blue hat. She was fitted her so well that her father remarked about it. When she was ready, out she ran to the corral to saddle Hunter. Hap, who was standing by, saw her in her sombrero, she went out to the men's quarters to see if he would let her take it.

At first, they did not recognize her, but when she came back, they saw her. "Linda, where did you get 'em? I mean the new tops."

I made them myself, and now I want Ben to see them," she said. "Ben came out, his eyes full of admiration, and handed her his hat, which she promptly placed on her head. "Oh, Bennie, you are a good girl. I like the new tops, and you an old boy of the ranch, not take it."

Ben turned red under his tan and went into the corral to get the horse. When she reached the corral gate, Hap was waiting for her.

"Where are you going today?" Linda, who was standing by, asked. "I am going to the LF to EE brand. The difference does it make to you?" she answered. "It makes a whole lot, Lin, you know how I've loved you and cared for you, and now you are going to the LF. These rustlers hesitate at nothing," said Linda, mischievously. "Happy-Go-Lucky," said Linda, "that anyone would dare molest me on my father's ranch?"

I have warned you to take care of your father's ranch," said Linda.

The look on his face persuaded her to do as he had asked, so she went into the corral to get the horse. When she reached her father's ranch, she was waiting for her. Her father asked her if she was going hunting dressed "p like that." "I may see something worth while shooting at," she said, and she was away.

She found a blue saddle blanket which she used instead of the crimson one she had always used before. There was little difference between the two, but the LF for Hunter was black with a white tip on his nose and three white feet. She resembled a tableau of "Midnight" as she rode away.

When away from the building she said to her horse, "Now you have always picked the trails for us, let me choose today, and you'll guide him. You know that but I don't know you." Her horse liked this trail as much as she because he always drank at the little spring. When she was riding, she saw the LF and Hunter, that she must go somewhere and think, and their canon was just the place.

As she reached this beautiful spot the trail divided, one going through a sheltered entrance, the other, up above. A person on this old trail could see below plainly by dismounting the horse and going close to the edge of the canon. Nearing the place where the trails divide, Hunter all at once picked up his head and instantly knew why he had snuffed, for he saw the smell of burning hair. Well she knew it. Someone was near. Her first impulse was to ride into the canon, but instinct told her to go, to go up on the trail and to get quietly.

This she did. She was so sure that she could see the LF from the top of the canon, she stopped her horse and getting off, threw her bridle rein, which meant for Hunter to remain there until she came on below her. The sight that met her eyes nearly stopped her heart from beating.

One had been branded over and another was roped for branding. At one side, she saw a small fire over which two men were cooking. The LF on the roped steer, when he took it away it left a burning EF.

Linda's eyes left the steer, and she was enough to recognize the LF. The others she did not know. She waited for not

Mr. and Mrs. James Kimball Enjoy Visit With Granddaughter—Lord Family Return

Mrs. Ella Lord has sold her place in Paris to New Hampshire parties for a private fish pond and chicken ranch. They will move there soon.

Mr. and Mrs. Colby Robinson of Bangor came after Mr. and Mrs. James Kimball, Mrs. Colby's grandparents to spend a few days with them. While there they visited Mr. Robinson's parents in Bangor going to Old Town and many other places of interest. They report the finest and most enjoyable trip of their lives. Mr. and Mrs. Robinson brought them home Saturday and spent the week end with their parents, Mr. and Mrs. Leon Kimball and visiting their grandparents. Mr. and Mrs. James Kimball, Leon Kimball called on his cousin, E. K. Shedd, Monday the 5th. He rode a spirited thoroughbred Morgan saddle horse presented to himself and wife by their daughter, Verna Robinson, a beautiful and appreciated gift.

Mrs. E. K. Shedd has sold her farm in Lynville to Mr. Leland Waterhouse of Norway.

Don Brown spent the week-end with his cousin, Lee Lord at E. K. Shedd's. There was a fine display of fireworks at Leon Kimball's Monday night and also at Pappoose Pond, beside the wonderful display at Eddie Hobson's in Lynville at his dance interspersed. A large crowd gathered to see the display and to join in the ball at the Hobson Pavilion.

Sunday, July 4th, the Lord family held their reunion at J. Ernest Brown's. At 9 a. m. the cars began parking in front of the house, some were beautifully decorated with flags and flowers. Over 30 were in attendance. A long table was spread under the big trees in the yard with good seats provided for all. The tables fairly groaned under the weight of the good things it held. It seemed that each one vied with the other to see who could bring the most and the best. Ice cream and coffee was served by the hostess, Mrs. Brown, while lemonade and fruits were brought by the company. All of the children and their families were present. Pictures were taken of the entire group and of the family. Pictures were taken of the 4 generations gathered there, comprising Mrs. Lydia Lord Shedd and son Roy Lord, his daughter, Mrs. Lucella Mills and son, Robert Mills. No happier gathering could be found than the one there at the old home where all were born, beneath the shade of the old elm trees. Those present were, Roy Lord and wife, Dr. Lord, Mr. and Mrs. Ouel Mills, two children, Francis and Robert; Walter Lord, five children, Mr. and Mrs. Myron Lord and two children, Kirtland and Harvey, Kathleen Lee and Stanley Lord; Albert Weymouth, Mr. and Mrs. Frank Pike and son Junior, Mr. and Mrs. Ernest Brown and two children, June and Don, Frank Brantbury, Mrs. June Penfold and two children, Mae and Jack; Fred Record, Mr. and Mrs. Asa Sessions, representing the towns of Waterford, Woodstock, Rumford, Brownfield, Paris, Bethel, Oxford and Albany.

## LOVELL

Several Visit in Portland—Pomona Met at No. 4—Party at H. S. McAllister's.

Mrs. Frank Emery went to Portland one day the past week. He was accompanied by his daughter, Annie Stevens of Fryburg and Mrs. Ralph Harb.

Mr. and Mrs. Linwood Harmon and daughter, Natalie of Massachusetts stopped over night with their mother, Mrs. Frank Harmon, Saturday.

Lester Briggs has a new Ford Sedan.

Sarah Strains is visiting her friend, Mary Turcott at Boothbay Harbor.

Mrs. Howard Woodward of East Conway, has been visiting her sister, Mrs. Frank Emery.

Ola Holsen who has been working for Mrs. Frank Harmon, spent the day with her parents in Stow, Sunday.

Pomona met at No. 4 Thursday at Sunday, quite a number of people were present.

Mrs. Nellie Chapman and Nora McAllister went to Fryburg with Mrs. Frank Emery one day recently.

Mr. and Mrs. Carlton Nevers and family were in Augusta, one day the past week.

Mrs. Herbert McAllister has been visiting her daughter, Mrs. Leland Wilson of No. Lovell.

Mrs. Arthur Andrews is visiting her sister, Mrs. Wallace Merrill of Norway.

Mr. and Mrs. Frank Emery took dinner with their daughter, Mrs. Fred Shaw of Fryburg, Sunday.

Mr. and Mrs. Ralph Littlefield and three children of Biddeford stopped over night with her parents, Mr. and Mrs. Lester Briggs.

Robert Littlefield has returned home, after spending a week with his brother, Ralph Littlefield of Biddeford.

Mr. and Mrs. Arthur Witham and family were in Portland, Saturday.

A party was held at H. S. McAllister's Sunday, the fourth. Twenty-four guests were present.

## NORWICH LOVELL

Clinton Miliken sold a heifer to Willis Learned of South Waterford, also a steer.

James Brackett bought a calf of Walter Butters of East Sebago.

Novell Andrews of Biddeford spent over the week end with his wife at Clinton Miliken's.

Bert Brackett has finished work on the road.

James Brackett has commenced haying for Mr. Stover.

Mr. and Mrs. Bett Kendall and family in company with John Barker and family and mother, Mrs. Lucy McAllister enjoyed a trip to Tripp Lake and Poland Spring house, Sunday, July 4.

Dr. and Mrs. George Mullen of New York called on Mr. and Mrs. George Eastman, Saturday afternoon.

The Rev. Marcus Brownson talked to a full house Sunday morning. There was also a large attendance at the bench service, music by Archie Hurd of Fryburg. Next Sunday evening the girls camp help furnish music, also Archie Hurd.

## NORWAY LAKE

Asa Frost and Willie Tucker are doing some carpenter work in Lovell.

Mr. and Mrs. Clarence Dunham and little daughter, Esther, spent the week end and fourth with friends in Lovell.

Mr. and Mrs. Alton Frost of Portland were guests at the Flood homestead, the fourth.

Mrs. Mary Healy of Portland is visiting her son, Henry Healy and family.

The Mothers' Club will have a supper and dance at their hall, Thursday, the 15th.

Mr. and Mrs. Herbert Lea are here from Springfield, Mass. and are stopping with Mr. Lea's parents, Mr. and Mrs. Fred Lea.

Mr. and Mrs. Fred Lea and daughter, Kathleen, have moved from the Richardson house on the Waterford road to the upstairs rent in Cyrus Mackay's house.

Mr. and Mrs. V. L. Partridge and little son, Winfield, were guests of Mr. and Mrs. Donald Partridge, the fourth.

Mr. and Mrs. Daniel Dellea and family motored to Lewiston, and Hartford the fourth.

## BATES—WEST PARIS

Funeral of Mr. Peterson—Vacation School Belfry Spire Being Repaired—Several Attending Summer School.

The funeral of Mr. Peterson of Snow's Falls who was drowned in Moose Pond, North Paris last Sunday was held in the Finnish church Tuesday p. m. It was attended by a large number of Finnish people. Mr. Peterson leaves a wife and seven children.

Reverends Tetley and Megert of South Paris and several of their teachers visited the Church Vacation school last Friday forenoon which was the last session of a two weeks course. An exhibition of work done and a pageant "Children of the Bible" was put on by two young ladies which was very good considering the time spent on it and that it was not the principal object of the School of Religious Education is the first consideration. They also sang a number of songs and several had recitations. The M. E. church lawn was fitted out for the audience room with a row of fir trees to screen from the street. A platform was built out over the church steps with fir trees and wild flowers and chairs placed for the audience. The evening entertainment consisted of songs and recitations by the children with a patriotic addition of the reading of the Declaration of Independence by Rev. E. C. Forbes. Two selections by a double mixed quartet and two by a men's quartet, all of which were fine. A small entrance fee was charged in the evening, also ice cream on sale to help defray expenses which with some individual contributions there is a surplus for future equipment. Various hand craft articles were also on exhibition and were very interesting. About thirty pupils were enrolled with twenty or more who were not fairly or absent. A fine spirit was manifested throughout and a wider public sentiment created. The children came from both the Federated and Universalist S. S. also teachers from both and the whole effort is considered very successful.

The Baptist church spire has been taken down to the top of the belfry for repair and a new spire is being put up which will not be so tall as the former but will still be in good proportion and topped out with the weather vane as before.

Mr. W. Flavin has the cellar and foundation dug out for his new hangout and the frame work is being put in place.

Arthur Flavin has come home from Washington and will go to a camp at Locke's Mills for the summer for his health.

Wm. Edmonds went to his home in Linden, Vt. over the 4th and played in the orchestra there as he used to.

A lot from here went to the celebration at Dixfield.

Mr. and Mrs. Randall Herick, their son, Milford and daughter, Hazel went to Berwick to visit relatives over the week end and the 4th.

Mrs. Jennie Cummings and grand-daughter Zilpha Barrows have gone to Kennebunk for two or three weeks to visit her brother there. Her daughter, Lillian Barrows accompanied her for over the 4th.

Mrs. Robert Young is away visiting relatives in Brunswick.

Mrs. Laura McKee has been visiting relatives in South Paris.

Ruth Perkins is visiting a school friend in Camden.

Charles Stetson and family visited relatives in Brunswick over the 4th.

The Paris Mfg. Co. have shut down for a week or so.

Elizabeth Bane, Louie Penobly, Minnie Swift, Valerie Houde, Marjorie Elwell and Inez Briggs are attending summer school at Farmington.

Mrs. Rose Cole has gone to Massachusetts to visit relatives for a few weeks.

Herbert Hill has gone to Milan to work for this week with Chester and Donald McAllister. Ralph has also gone with them.

## NOBLE'S CORNER

Mr. and Mrs. Oscar Cox went to Highmore Farm in Monmouth last Thursday, to attend the McIntosh meeting. They called at the C. M. G. hospital to see Oliver Buck and Mrs. Mary Farnham, both are doing nicely.

Clarence Austin has finished work for H. B. Wright. He is now helping build a garage for Guy Curtis.

Mr. and Mrs. George Ricknell and son, Lester, of Biddeford, Mass. are here and Mrs. C. L. Knight of Norway were Sunday callers at Perley Russell's.

Mr. and Mrs. Alton Bonney and three children and Mrs. Eddie Cameron of Portland were guests at Oscar Cox's, recently.

Mr. and Mrs. Percy Russell and son, Charles, Mr. and Mrs. Percy Ound and daughter, Dorothy, called on Yvonne Peterson of Richardson Hollow, Sunday evening.

Mr. and Mrs. Frank Herick and children of Dover, N. H. were holiday guests of Mr. and Mrs. Charlie Herick.

Wm. Meserve of Welchville is visiting his daughter, Mrs. Irving Symonds, a few days.

Dr. and Mrs. I. P. Symonds accompanied Mr. and Mrs. Howard Heath to Mason and Gilead, Sunday. They called on friends and relatives.

Mr. and Mrs. Frank Herick and children of Dover, N. H. were holiday guests of Mr. and Mrs. Charlie Herick.

Wm. Meserve of Welchville is visiting his daughter, Mrs. Irving Symonds, a few days.

Dr. and Mrs. I. P. Symonds accompanied Mr. and Mrs. Howard Heath to Mason and Gilead, Sunday. They called on friends and relatives.

Mr. and Mrs. Frank Herick and children of Dover, N. H. were holiday guests of Mr. and Mrs. Charlie Herick.

Mr. and Mrs. Frank Herick and children of Dover, N. H. were holiday guests of Mr. and Mrs. Charlie Herick.

Wm. Meserve of Welchville is visiting his daughter, Mrs. Irving Symonds, a few days.

Dr. and Mrs. I. P. Symonds accompanied Mr. and Mrs. Howard Heath to Mason and Gilead, Sunday. They called on friends and relatives.

Mr. and Mrs. Frank Herick and children of Dover, N. H. were holiday guests of Mr. and Mrs. Charlie Herick.

Wm. Meserve of Welchville is visiting his daughter, Mrs. Irving Symonds, a few days.

Dr. and Mrs. I. P. Symonds accompanied Mr. and Mrs. Howard Heath to Mason and Gilead, Sunday. They called on friends and relatives.

## Good Teeth

## For Maine Boys and Girls

Maine boys and girls will be bothered very little with toothache this coming winter if a plan proposed by the Dental Hygiene Section of the Maine Public Health Association enlists the cooperation of the school children of the state, which Doctor Gerald P. Clifford, chairman of the section, hopes for. Through careful attention to teeth during the summer vacation, Doctor Clifford hopes that when school re-opens this fall Maine boys and girls will present certificates from their family dentists to the effect that their teeth are in perfect order. Through the aid of thousands of Maine school teachers, superintendents and principals, the following letter, signed by Doctor Clifford, chairman of the M. P. H. A. Dental Hygiene Section and Miss Abbie Buck, supervisor of the Child Health Education Service of the Maine Public Health Association is being sent into Maine schools. To the School Children of Maine:

Dear Girls and Boys: A good many thousands of you are going to visit your dentist during the summer. Let us make it unanimous—let us all go—what do you say?

If you have your teeth taken care of between now and fall you will feel better, and be able to do better work in school. Here are some good rules to follow if we are to take proper care of our teeth:

1—Brush them thoroughly after eating and especially just before going to bed.

2—Visit the dentist at least twice a year whether we have a toothache or not. He may find a little correction which can be made without much expense and with very little pain—whereas if we wait the cost will be more.

3—Chew our food thoroughly.

4—Exercise our teeth, and give them proper nourishment by drinking milk and eating whole wheat bread—especially the crusts, some raw vegetables such as lettuce, leaves of cabbage, carrots, salads made of fruits, nuts, etc.

5—A daily use of a mouth wash which your local dentist can tell you how to make at home with an expense of only a few cents a month.

Will you help me at the top in this great nation-wide Clean Mouth and Teeth-Saving Campaign? Help your school win by having your own teeth taken care of before school opens in the fall. Try to earn the money yourself to pay for this dental attention. Look at your teeth, have your parents look at them, then go to the dentist and ask him to tell you just what you need to have done.

The Maine Public Health Association, which is made up of hundreds of men and women all over the State of Maine, is interested in you and your health, because they know that in a few short years you will be running all the affairs of this state and the communities in which you live. They know that if you can keep

your teeth in perfect order, you will be able to do better work in school. Here are some good rules to follow if we are to take proper care of our teeth:

1—Brush them thoroughly after eating and especially just before going to bed.

2—Visit the dentist at least twice a year whether we have a toothache or not. He may find a little correction which can be made without much expense and with very little pain—whereas if we wait the cost will be more.

5—A daily use of a mouth wash which your local dentist can tell you how to make at home with an expense of only a few cents a month.

Will you help me at the top in this great nation-wide Clean Mouth and Teeth-Saving Campaign? Help your school win by having your own teeth taken care of before school opens in the fall. Try to earn the money yourself to pay for this dental attention. Look at your teeth, have your parents look at them, then go to the dentist and ask him to tell you just what you need to have done.

The Maine Public Health Association, which is made up of hundreds of men and women all over the State of Maine, is interested in you and your health, because they know that in a few short years you will be running all the affairs of this state and the communities in which you live. They know that if you can keep

your teeth in perfect order, you will be able to do better work in school. Here are some good rules to follow if we are to take proper care of our teeth:

1—Brush them thoroughly after eating and especially just before going to bed.

2—Visit the dentist at least twice a year whether we have a toothache or not. He may find a little correction which can be made without much expense and with very little pain—whereas if we wait the cost will be more.

3—Chew our food thoroughly.

4—Exercise our teeth, and give them proper nourishment by drinking milk and eating whole wheat bread—especially the crusts, some raw vegetables such as lettuce, leaves of cabbage, carrots, salads made of fruits, nuts, etc.

5—A daily use of a mouth wash which your local dentist can tell you how to make at home with an expense of only a few cents a month.

well you will be able to make Maine the greatest state in the Union in every way.

Maine Public Health Association, Dr. Gerald P. Clifford, Chm. Dental Hygiene Section.

Miss Abbie M. Buck, Supervisor Child Health Education Service.

All schools in which 100 per cent. of the pupils present certificates from their dentists that their teeth are in perfect order upon the re-opening of school this fall, will receive beautiful certificates to be presented by the Maine Public Health Association. The importance of good teeth in "Keeping Well" and in making for better school work has been emphasized during the past year by staff nurses and other field workers of the M. P. H. A. sections of the state.

A bishop said this truth: "It costs more to revenge injuries than to bear them."

## Your Printing Order

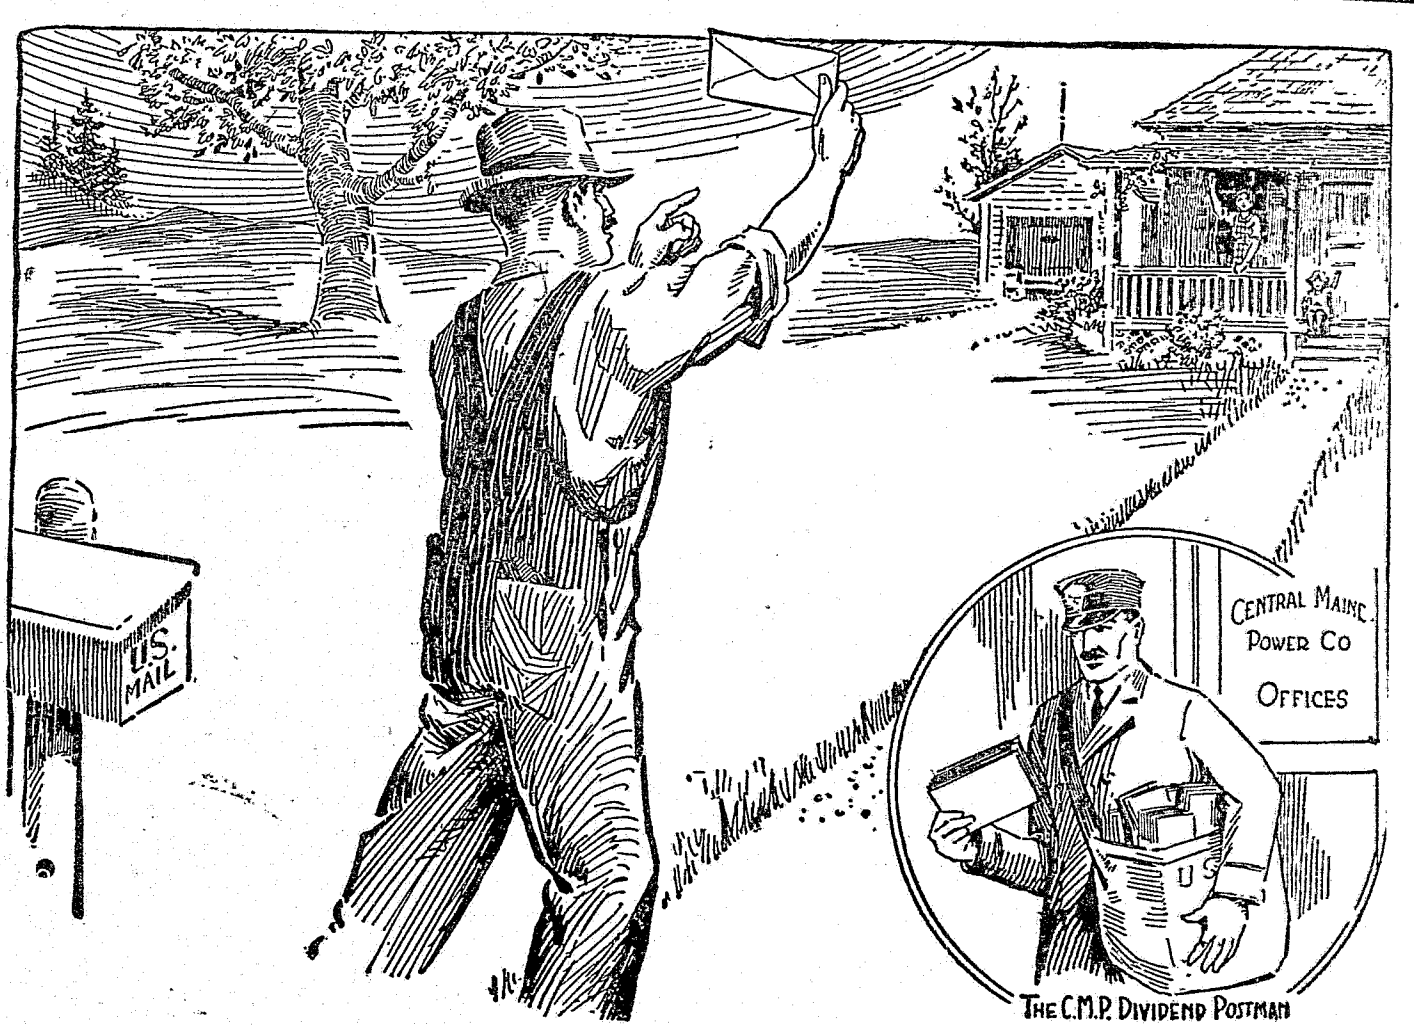

Will Receive Prompt Attention at the Advertiser Office

The Advertiser operates a complete job printing plant and is at all time pleased to furnish price on any piece of work—whether it be an order for calling cards, stationery, bill heads, envelopes, posters, dodgers or a booklet.

## The Newspaper Deserves Your Printing

It is providing publicity free of charge for the little and big things that effect your business and social life. An entertainment for instance, without newspaper publicity, falls flat. Does the newspaper, then, after giving such publicity, not deserve the paid work in connection with such entertainment? Think it over.
